BILL FOR MEDICAL SCHOOL INSPECTION

Babbitt Submits Draft Of Proposed Act To Frear

Among the bills which Superintendent of Public Instruction Babbitt has drafted and submitted to the Governor is the following on the subject of medical inspection:

Section 1. The Department of Public Instruction of the Territory of Hawaii is hereby authorized to appoint and assign Medical Inspectors, who shall be qualified physicians, to hold office during its pleasure and to receive such compensation as it may fix. It shall provide proper facilities for the performance of their duties as prescribed in this Act and shall make rules and regulations for their governance.

Section 2. Every Medical Inspector shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors and school buildings as in his opinion the protection of the health of the pupils may require.

Section 3. The principals or teachers of all public schools shall cause to be referred to a Medical Inspector for examination and diagnosis every child returning to school without health certificate after absence on account of illness or unknown cause; and every child showing signs of being in ill-health or of suffering from infectious or contagious disease unless he be at once excluded from school.

Section 4. The Department of Public Instruction shall cause notice of the disease or defects, if any, from which any child is suffering to be sent to parent or guardian. Any child showing symptoms of smallpox, scarlet fever, scarlatina, chickenpox, measles, tuberculosis, diphtheria, whooping cough, mumps, or trachoma, shall be sent home immediately and the Board of Health at once notified.

Section 5. The Department of Public Instruction shall cause every child in public schools to be separately and carefully examined at least once in every school year to ascertain whether he is suffering from defects of sight or hearing or other disability or defect tending to prevent his receiving the full benefit of his school work. The test of sight and hearing shall be made by teachers. Notice of any defect or disability requiring treatment shall be sent to the parent or guardian of the child and a physical record of each child shall be kept in such form as shall be prescribed by the Department of Public Instruction. No treatment shall be given by the Medical Inspector in such capacity.

Section 6. The Department of Public Instruction in consultation with the Board of Health shall prescribe directions for tests of sight and hearing and shall furnish to the schools suitable rules of instruction, test cards, record blanks, etc., necessary for carrying out the purposes of this Act.

Section 7. The Department of Public Instruction shall provide for students in the Normal School instruction and practice in the best methods of testing the sight and hearing of children and shall provide a child's study laboratory for the study of backward and defective children and the instruction of teachers in methods of testing same.

Section 8. This Act shall take effect from and after the date of its approval.

Judging from present indications the tobacco production of Hawaii this year will amount to several thousand pounds. At the meeting of the Kona Tobacco Company yesterday in the Promotion Committee rooms, Jared G. Smith, president and manager, reported encouragingly on the present crop. In order to perpetuate the tobacco growing, the trustees of the Bishop Estate decided to offer liberal terms to the settlers who wish to go into the tobacco business.

BRYAN'S LIGHT IS NOT BUSHEL-HID

Science Booster Is Doing All He Can For Honolulu

Dr. W. A. Bryan, president of the Pacific Scientific Institute, Honolulu, H. I., who says he is from "A land without beggars," to attend the convention of the American Association for the Advancement of Science, is registered at the Helvedere," says the Baltimore Sun. He is one of the scientists who comes with a mission and hides not his light under a bushel; neither is he backward about speaking of that mission, which briefly is to induce the members to hold a meeting in Hawaii next summer.

This meeting is in accordance with a custom which for several years has recognized the convening of summer meetings, which are practically overflow gatherings of the annual conventions.

In Chicago last year the association endorsed the plan, if satisfactory transportation rates could be secured. Consequently Dr. Bryan will urge acceptance of his invitation. Incidentally, it is possible that Governor Walter F. Frear of Hawaii, who is in this country, may be present to assist Dr. Bryan.

Dr. Bryan, who is no relation to William Jennings Bryan, has been in Hawaii ten years, and the chief work that the institution of which he is at the head is interested in is the ethnological and biological survey of the Pacific Islands, and this feature of scientific work is one of the inducements Dr. Bryan will hold out to his fellow scientists.

Speaking generally of his country, Dr. Bryan described it as a land without poverty. He said:

"In the ten years that I have been here I have never been asked to give alms. Most of the sugar plantations of the islands are operated by Americans, among whom was the late Claus Spreckels, who died several days ago. These plantations are worked by natives and Japanese, the latter performing a great percentage of the labor. But despite the fact that there are many Japanese upon the islands and there have been some attempts at labor organization by unions, there is little trouble or disorder.

"There has been an effort for several years to influence Americans to settle upon the islands, but with little success, because of the difficulties of working the land, which in many parts is of volcanic origin, needing irrigation. In time, however, it is hoped that more white men will settle there.

"The climate of Hawaii is delightful and the hospitality of the natives unending."

Dr. Bryan will lecture Wednesday night at McCoy Hall upon "Fire Mountains—A Visit to Mount Kilauea," illustrated by moving pictures, which will show the volcano in eruption.

Partner Wanted

Owner of an old mercantile house wishes to associate himself with a business man who is willing to take an active part and put \$5000 into the business to enlarge it. Absolutely safe. Legitimate returns assured. Bank and commercial references. For particulars apply

QUEEN'S APPEARANCE BEFORE COMMITTEE

WASHINGTON, D. C., Jan. 14.—A queen, deposed, it is true, stood before the House Committee on Claims today and pleaded for more money as recompense for the loss of her crown, her land, and her revenues, which in past days had enabled her to live in regal splendor. Liliuokalani was at best a pathetic sight as she made her appeal, though she carried herself with proud men. For years she had asked Congress for \$250,000 in payment for all that she had lost, but the plea has been made by deputy, and has been unheeded. Today she appeared in person, accompanied by Princess Kalaniana'ole, the wife of Prince Jonah Kūhiō Kalaniana'ole, and her cousin, the Congressional Delegate from Hawaii.

The former queen was gowned in brown panne velvet, with a black hat surmounted by a large white egret. Thrown over her shoulders was a loose black cloak. She wore tan gloves. Age has tinged the coal black hair with silver threads and wrinkled the kindly brown face, but the former Queen of Hawaii was still queenly in her bearing and dignified in her manner.

Prince Kalaniana'ole made a strong plea for the money. He detailed the history of the former Queen's reign, the circumstances attending the American occupation by bluejackets on March 17, 1893, and the use from that date of her crown lands and personal estates, valued now at \$10,000,000. Former Judge H. H. of the Supreme Court of Hawaii also urged the committee to grant the claim, contending its fairness and legality. The committee reached no report on the bill.

COELHO'S FIRE ENGINE.

(Special to the Bulletin) Wailuku, Maui, Jan. 23.—Senator W. J. Coelho returned from Honolulu per steamer Claudine this morning. The new engine for the Kahului Fire Company, which the Senator obtained from Superintendent of Public Works Margaret Campbell, will be brought up by the next trip of the Claudine. A temporary shed for the engine will have to be built at Kahului. The fire department will likely petition the Board of Supervisors for the erection of a suitable building at some convenient location at Kahului for the housing of the new engine and the hose cart belonging to the Kahului company.

JUDGE CONRADT ON MAUI.

(Special to the Bulletin) Wailuku, Maui, Jan. 23.—District Magistrate C. C. Conradt of Pukoo, Molokai, who is also Deputy Tax Assessor on that island, is in Wailuku this morning, having come by the steamer Claudine. He will return to his island home by the Mikahala leaving Lahaina this afternoon. The Judge is looking well, and reports everything lovely on Molokai and politics not disturbing the minds of the people over there.
